Ref.C No. 11224/B1-38

Station Mangalore, *Dated the* 18th October 1938 .

From (Name) Sri K. Govindarajulu Naidu, B.A.,

(Designation) Commissioner, Municipal Council, Mangalore.

To The Secretary to the Government of Madras,
Education and Public Health
Department.

Through The Chairman, Municipal Council, Mangalore, Fort St. George, MADRAS.
&
The Director of Public Health, Madras.

Sir,

Not sent through D.P.H.

The Municipal Council had under its employ three Births and Deaths Registrars out of which one was a temporary post. While sanctioning the Budget Estimate for the year 1938-39, the Council in its resolution No.12 dated 25th February 1938 resolved that the post of the temporary Birth and Death Registrar be abolished with effect from 1st April 1938.* Accordingly notice was issued to the temporary Birth & Death Registrar and he was discharged with effect from 1st April 1938. Govern-

Government however in G.O.No.Ms.1689, P.H. Education and Public Health Department dated 6th May 1938 fixed the strength of the Public Health Staff under sub section (3) of section 70 of the Madras District Municipalities Act 1920 and while so fixing the strength, the strength of the Births & Deaths Registrars was fixed as three. On receipt of this order, the Municipal Health Officer suggested the reentertainment of the discharged third Birth & Death Registrar. The post was therefore again revived on 1-6-1938. On reviewing the statement of Births and Deaths detected during the year 1937, the Municipal Council, on the recommendation of the Sanitation Committee resolved in its resolution No.64 dated 27-8-1938 to address Government to permit the Council to employ only two Births and Deaths Registrars as the Council is of opinion that there is no sufficient work for three Registrars of Births and Deaths. A copy of the resolution of the Sanitation Committee on the subject as also that of the Council is enclosed. In the circumstances explained above, I request Government will be pleased to reduce the strength of the posts of Births & Deaths' Registrars from three to two.

p 4 infra

p. 3 infra

p. 4 infra

A statement of the number of Births and Deaths registered during the year 1937 as also the number of cases detected by the three Registrars is also enclosed for the information of Government.

Res.No.1

Read the statement of the detection Births and Deaths by Registrars furnished by the Municipal Health Officer as desired by the Council at its meetings held on 25th February 1938.

The Committe is of opinion that there is no sufficient work for three Registrars of Births and Deaths as the statistics show. The Government may be requested to permit the Council to employ only two.

The Committee feels that no useful purpose will be served by employing three.

46976

Sir,

We, the undersigned rate-payers and citizens of Mangalore Municipal area, in the district of South Kanara are very much concerned at the proposal of some of the members of the Municipal Council to reduce the strength of Registrars of Births and Deaths from 3 to 2 in the Municipality. We learn that their plea for their course is that there is not enough work for three Registrars. If the number of deaths and births daily registered in the Creterian for the number of Registrars to be maintained, even the existence of one Registrar may be considered sufficient. But we beg respectfully to submit that there are other facts and factors to be taken into consideration in this matter. These Registrars are also required to inspect and verify births and deaths in the town and the whole town has to be thus traversed by three hands in three centres of the town, we find it very hard and difficult and practically we have to waste one half day for this purpose and poor classes of people among us can ill-afford to waste half-a-day and if the centres are reduced by one the difficulties and inconveniences we shall have to suffer will be still greater.

The Government have also laid down in recognition of all the difficulties that for every 20,000 of the population there ought to be one Registrar of Births and Deaths and according to the figures of the last census held in 1930 our city had a population of 66,756 and the scheduled strength therefore is 3 Registrars of Births and deaths. Eight years have passed since the last census and today the population of our Municipal city is not less than 75,000 at the least.

When a suggestion was made sometime back by some of the Councillors for a reduction in the Birth and Death Registrars, the Director of Public Health strongly opposed the proposal and Government refused to reduce the number and we are grieved to find that the same old proposal is again pressed before the Government, unmindful of the inconvenience that this proposal is likely and is sure to come to the public.

In these circumstances, we most respectfully and emphatically urge that the present strength of the Birth and Death Registrars may be retained and that Government may be pleased to veto the proposal now sent for the reduction of one hand.

We beg to remain,

S i r,

Your most obedient servants,

C.F. 50.

In returning the papers received with Government Memo.No.46795-1-3.1 P.H., dated 12-11-38 I have the honour to state that the proposal of the Municipal Council is not a sound one and should not be agreed to. Three birth and death registrars are absolutely necessary for Mangalore Municipality.

I have the honour to be,
Sir,
Your most obedient servant,

C M Ganapathy

Lieut.-Col.I.M.S.,
Director of Public Health, Madras.
